ROOM DEDICATION BY HEARING AND SPEECH AGENCY

A Clinical Area to Serve Communicatively Impaired Infants and Their Families in the future Hearing and Speech Agency facility was dedicated to Dr. William G. Hardy, Dr. Miriam P. Hardy and Miss Harriet L. Haskins of the Johns Hopkins Hospital and University. The honor was made possible because of the gifts of many friends and associates of the Hardys, Miss Haskins, and of The Hearing and Speech Agency, a United Fund Agency. The dedication took place on March 1 in the Hilton ballroom where over 300 people from across the country gathered to pay tribute to the Hardys and Miss Haskins in recognition of their professional and humanitarian achievements and contributions.

The Hardys and Miss Haskins have served hearing, language and speech impaired individuals for over 40 years as innovators, researchers, teachers of doctors, teachers of teachers, and master clinicians. Among those who came to Baltimore to honor the trio were: Eldon Eagles, M. D., Director, National Institutes of Neurological Diseases and Stroke; George Fellendorf, Director, Alexander Graham Bell Association for the Deaf; Kenneth Johnson, Ph. D., Executive Secretary, American Speech and Hearing Association; Richard Masland, M. D., Chief of Neurology, College of Physicians and Surgeons, Columbia University, and many patients, colleagues and friends. Citations were presented in behalf of Mayor William Donald Schaefer by

- CONTINUED -

Walter Sondheim, Jr., Chairman, Charles Center - Inner Harbor Management Corp., and member of the Honorary Committee for the dinner program.

The program was planned and hosted by the Community Council of The Hearing and Speech Agency of Metropolitan Baltimore, Inc.

The Hearing and Speech Agency is a United Fund Agency whose programs include: the Gateway Pre-School and Clinical Speech and Hearing Evaluation and Therapy. The Agency serves children and adults in the Baltimore Metropolitan area, including the surrounding counties, who experience disorders such as: hearing loss, cleft palate, loss of the ability to speak as the result of a stroke or accident, stuttering, delayed language, and learning disabilities.
